020-2708-XX
LGA775 Heat Sink Hardware
for the TMSDPH2 Product
Installation Instructions

Tektronix

② Snap the heat sink into the standoffs(4).

① Thread the standoffs onto the screws as shown.

Kit Contents

■ Instruction sheet

■ Standoffs (4)

■ Screws (4)

Tools Required

■ Phillips (P1) screwdriver to tighten the screws

■ Optional: A torque wrench helps to ensure reliable connections by meeting the nominal torque values. When attaching screws use 8 in-lbs of torque.

Overview

Use this instruction sheet to install the heat sink hardware. To install the probe head use the installation instructions in the *TMSST2 LGA771 and 775 Socket Hardware Support Manual* (Tektronix part number 071-1665-XX).

⚠ **CAUTION.** *Only qualified service personnel should install these parts.*

Procedure

You need to power off the target system and remove the heat sink and power pod before installing the heat sink hardware.

To install the heat sink hardware, follow the steps in this illustration.
