Keyboard	Standard accessory provided with the instrument

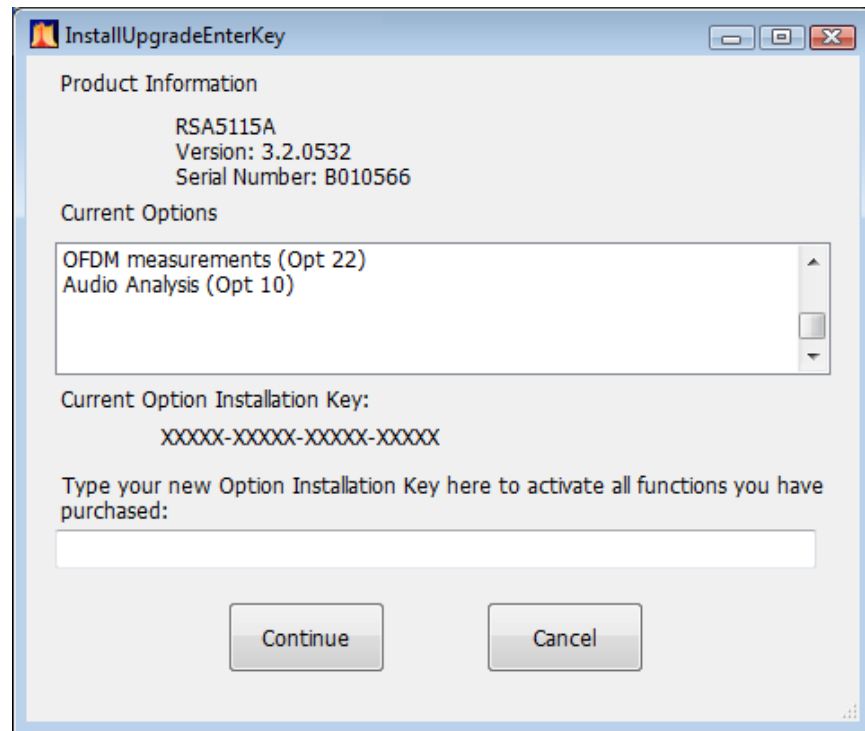

Install option key

To activate your new option, you must enter a new option key.

1. Power on the instrument.
2. Select **Tools > Install Upgrades...** to start the upgrade installation process.
3. Click Continue from the Install Upgrades introduction screen.

4. Enter the option key provided by Tektronix, and follow the on-screen instructions to install the option.

5. Power off the instrument, then power back on.
6. In the Help menu, select About Tektronix Real-Time Analyzer.
7. Verify the new option is listed.

Attach labels

Please attach all labels provided in this kit on the instrument's rear panel.

Attach the option key label Place the new option key label over the existing label on the instrument rear panel.

Verify instrument software version

Tektronix recommends to update to the latest available application software for your instrument.

1. Select **Help > About** to check the software version.
2. Use your Web browser to go to: www.tektronix.com/software.
3. Search for your instrument's model number and follow the link to the software.
4. If the installed software is older than that available, download the software.
5. Follow the instructions on the Web page to install the software.
