

Protect Your Investment.

Protect Your Uptime.

Tektronix offers a range of service plans available with your 2 Series Mixed Signal Oscilloscope purchase. Protect and maintain your instrument's performance over the years while reducing downtime and expense.

PRIORITY SERVICE • OEM-EXPERT MAINTENANCE • ACCIDENT PROTECTION

TOTAL PRODUCT PROTECTION

Protect your equipment from accidental damage, wear and tear, and electrical overstress (EOS) or electrostatic discharge (ESD) events. If we can't fix it, we'll replace it.

TEK CARE PLAN

Extend your initial warranty coverage. Tek Care includes software, firmware, safety, and reliability updates as applicable with each repair, extending instrument life and giving you confidence in your measurements.

CALIBRATION PLANS

Ensure your instruments maintain peak performance with the most complete calibration and updates by the OEM who knows your Tektronix equipment the best.
