

TekScope PC Software

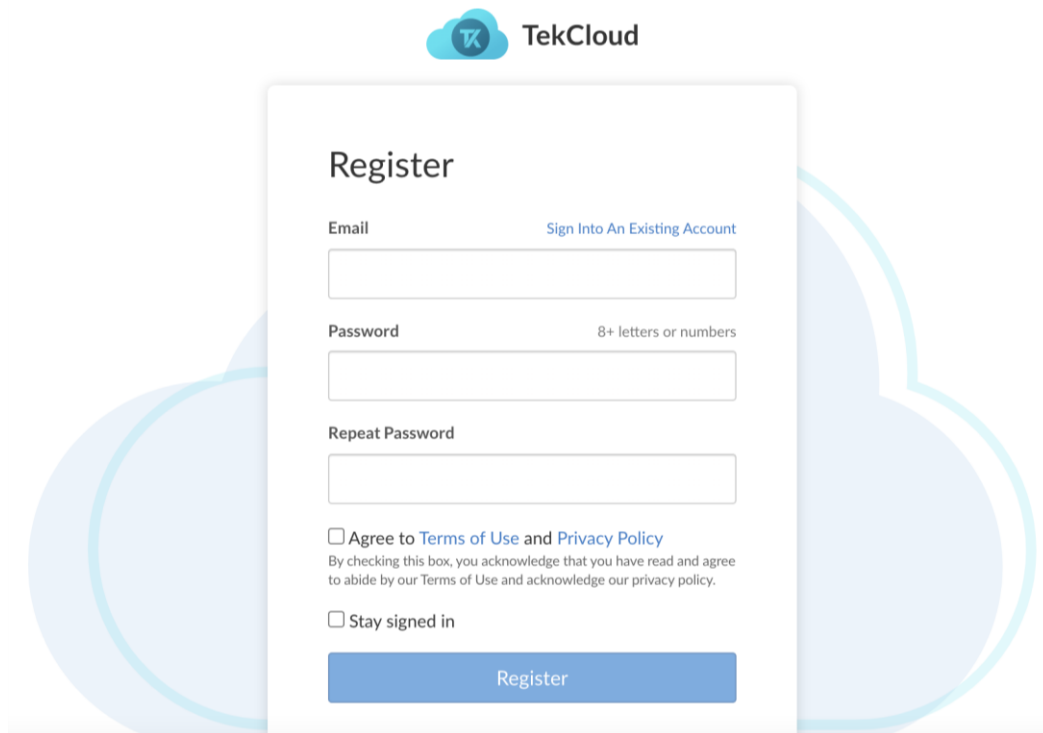

Installation Guide

If you already have a TekCloud account, you have access to both TekScope and TekDrive. This is a different login from your Tektronix account.

The instructions below are for those who have not registered yet. You can register for a TekCloud account by registering for either TekScope or TekDrive. Once registered, you will have access to both applications.

Register, Download, and Install TekScope PC Software

1. Go to <https://www.tekcloud.com/tekscope/>.
2. Click Get TekScope.
3. Verify your email address.
4. Enter your email and choose a password.

The image shows a screenshot of the TekCloud registration page. At the top, there is the TekCloud logo, which consists of a blue cloud icon with a white 'TK' inside, followed by the text 'TekCloud'. Below the logo is a white registration form titled 'Register'. The form contains the following elements: a link for 'Sign Into An Existing Account', an 'Email' input field, a 'Password' input field with a note '8+ letters or numbers', a 'Repeat Password' input field, a checkbox for 'Agree to Terms of Use and Privacy Policy' with a sub-note 'By checking this box, you acknowledge that you have read and agree to abide by our Terms of Use and acknowledge our privacy policy.', a checkbox for 'Stay signed in', and a blue 'Register' button at the bottom.

Installation Guide

5. Enter your personal and address information. Please make sure to enter accurate information, otherwise your account may be flagged and registration will be delayed.
 - a. You may be asked to verify the address you entered.
 - b. If your account requires additional review, you will need to wait up to two business days.
 - c. If you have already purchased a license and received an activation code, enter it in the Prepaid Code field at the bottom, and skip to step 8. This will allow you to skip plan selection and go directly to downloading the software and the license file.
