

Bringing ^{the} Factory to You

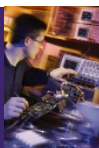

They're all smiling for entirely different reasons...

... and they're all right!

They've just decided to make their jobs easier, more profitable and more productive with Tektronix. From the corner office to the production floor, everyone in your organization has a vested interest in keeping things running smoothly. Each department may have its own core objectives and daily concerns, but you all count on Tektronix instruments operating at peak performance.

Topics:

Tektronix On-Site Calibration Services

section 2

The world is watching. Stay sharp with the experts.

section 3

Start Today: Five simple steps to hassle-free calibration

Now **everyone's** happy with help from Tektronix.

The Brass: Station Chief Engineer, Operations, Purchasing Manager

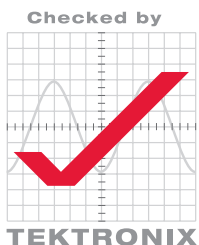

- » Maximize ROI with the most thorough and cost-effective means of keeping your Tektronix instruments functioning perfectly

The Brains: Engineer, Designer, Graphic Arts

- » It's your job to keep the company ahead of the curve. That's hard to do if your critical tools and instruments are offline. Stay focused on the future, and let Tektronix handle the rest.

The Muscle: Electronics Service, Support Technicians

- » The team depends on you to keep everything moving. Let Tektronix help you mitigate downtime and guarantee optimum performance from your equipment.

The world is watching

All eyes and ears are on you. Let the experts maintain the equipment that keeps you out in front.

We know how important it is for you to have measurement instruments that operate at the highest degree of accuracy and efficiency. And who could be better at keeping your tools in top working order than the people who designed them? Each of our Tektronix Customer Service Engineers average 20 years of industry knowledge, application experience, and product training. Now these experts are only a phone call away.

A Service professional works directly with you to plan, manage and execute a comprehensive calibration program that doesn't impact demanding design and production schedules. You can always count on ready access to

your instruments and fast turn-around times. We're making it easier than ever to ensure peak performance from all of your Tektronix equipment with our On-Site Calibration services.

Getting it right the first time

There are a lot of great reasons to trust Tektronix with your mission critical systems: We stand beside our customers, and stand behind every piece of equipment we build. Thanks to rigid ISO/9000 compliance and our +99% right-the-first-time guarantee, Tektronix keeps your operation online, on time, and on budget.

5 Simple Steps

It's easier than ever to bring the Tektronix factory to you!

- **CONTACT US.** Set up an appointment online at www.tektronix.com/serviceandsupport/contactus, or call your Tektronix Account Manager.
- **NEEDS ASSESSMENT.** Provide us with an equipment list. Talk to us about your systems, existing concerns or challenges, and let us answer any questions you might have about Tektronix On-Site Calibration Services.
- **CUSTOM QUOTE.** Based upon the equipment you have in use and your calibration needs, we'll provide quote that's specifically tailored to your schedule and budget.
- **GET CHECKED BY TEKTRONIX.** You and your Account Manager schedule your first visit according to what best supports your production schedule.
- **START SMILING.** Relax! Your Tektronix Service Advantage guarantee means that your instruments are factory certified and all service is fully documented.
