

ASSETS ON DEMAND

YOUR EQUIPMENT, WHEN YOU NEED IT

Full asset lifecycle management.

- How do you issue new equipment?
- Do you have a good process to withdraw equipment from service?
- How does your organization manage loaning equipment across sites?
- Where do you store equipment when not in use?

Our services free you from the pain of managing equipment pools, so you can focus on managing your people. Streamline the process of issuing new equipment, sending loaners or replacements to your workforce, and withdrawing equipment from service.

Make the most of your assets.

Managed Services

- Tek stages equipment for deployment and consolidation
- Maintain real-time equipment inventory
- 24/7 visibility of your assets with CalWeb
