

# CALIBRATION SERVICES

The one-stop shop for all your calibration service needs

## Why Choose Tektronix?

Tektronix solutions have supported many of humankind's greatest advances of the past 70 years. Health. Communication. Mobility. Space. We are committed to the scientists, engineers and technicians around the world who will define the future.

Clients choose Tektronix as the service provider for their instruments when success cannot be left to chance.

*"Maintaining our parametric test systems is critical to our sophisticated production environment. Tektronix/Keithley allows us to pre-schedule on-site calibration support to ensure minimum downtime."*

- International Semiconductor Fabricator

*"Since we selected Tektronix as our service provider, we have realized a 40% increase in our test equipment availability, improving production efficiency and significantly reducing redundant capital expenditures with no audit findings."*

- Aerospace customer

Tektronix manages 100% of calibrations and repairs, enabling you to simplify your calibration management program and reduce associated operating expenses.

## Extensive Calibration Capabilities

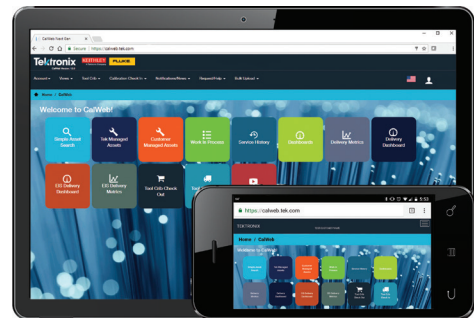

We are the only source for factory calibration of Tektronix, Keithley and Fluke equipment, as well as an industry-leading provider of calibration services for 140,000 instruments from more than 9,000 different manufacturers.

## Global Reach with Local Presence

Tektronix has the most extensive global network of resources. More than 100 points of service and 1,100 highly trained experts world-wide. Flexible service delivery options including door-to-door delivery, on-site support, or pick-up and delivery from our service center network.

## Quality & Accuracy

Be confident in your measurements. Choose from multiple certificate options traceable to both US and international standards, including ANSI Z540.1 and ISO/IEC 17025 accredited calibration.

## Complementary Access to CalWeb®, an Asset Management Application from Tektronix

Effective asset management to increase your productivity

- Easily access calibration certificates
- Manage calibration intervals and track work-in-progress
- Optional system integration with local ERP, LIMS, and others
- Flexible, customized reporting

## Industry Sectors

- Aerospace/Aviation
- General Manufacturing
- Automotive
- Government
- Communications
- Medical Equipment
- Defense Contractors
- Pharmaceutical/Biotech
- Energy
- Semiconductor/Electronics
