Installation Instructions

This section provides information on how to enable the Scheduler software on your MTX100B MPEG Recorder & Player, RTX100B ISDB-T RF Signal Generator, and RTX130B QAM & VSB RF Signal Generator.

For information on how to use the Scheduler software, refer to the *MTX100B MPEG Recorder & Player User Manual* (Tektronix part number 071-1927-XX), *RTX100B RF Signal Generator User Manual* (Tektronix part number 071-1930-XX), or *RTX130B QAM & VSB RF Signal Generator User Manual* (Tektronix part number 071-1933-XX).

Entering the Option Key

Perform the following steps to enter the option key that is supplied with the upgrade kit. This enables the Scheduler software on the instrument.

1. Connect a keyboard and mouse to the USB connectors of the instrument (if they are not already installed).
2. Power on the instrument, and wait for it to boot.
3. In the Play screen, select **Utility > Option Key** to open the Option Key dialog box. See Figure 1.

4. Consult the option key document that is supplied with the kit and identify the option key numbers.
5. Enter the four 5-character alphanumeric numbers in the **Option Key** entry fields, and then click the **Update** button.
6. Remove the protective backing from the label marked “Option SC” and apply it to the right side of the cabinet.

Verifying the Software Upgrade

Perform the following steps to verify that the software upgrade was successful:

1. Select **File > Scheduler** in the Play screen.
2. Verify that the Scheduler application window opens.
3. Exit the Scheduler application.
