Operating requirement

The DPO7OE1 33 GHz Optical Probe is compatible with all DPO70000SX, MSO/DPO70000DX, and MSO/DPO70000C Series oscilloscopes.

To use the DPO7OE1 probe, these oscilloscopes must be running one of the following firmware versions:

- **70 GHz oscilloscope models:** Version 10.8.0 or later.
- **All other oscilloscope models:** Version 10.8.1 or later.
