Downloading MTSA software and documentation

Refer to the table below to determine the software and documentation you need to download from www.tek.com, based on the product option(s) you ordered. The software and documentation together will provide you with what you need to properly install and operate the MTSA product.

To download the MTSA software and documentation, go to www.tek.com. From the Tektronix home page, you can search for the target item, using the part number or title contained in the table following this procedure:

1. Copy the part number or title from the table below into the search field at the top of the home page.
2. Select the **Search** icon to display the results. To confirm that you have located the target item, the part number in the table must match the part number of the search result. The last two digits of the part number will be different depending on the document version. Always download the latest software and/or documentation version. Select the Download File button to download the item.

The following table lists the software and associated documentation that supports each MTSA software option:

Software option ¹	Software title	Software part number ²	Document title	Document part number ²
TSCA MUX ESA PBUFFA ALZRPK	MTSA Application Software	066-2029-xx	MTSA Release Notes	077-1604-xx
			MTSA Quick Start User Manual	071-3661-xx
			MTSA Analyzer Applications User Manual	077-1600-xx
			MTSA Generator Applications User Manual	077-1601-xx
			MTSA Carousel Applications User Manual	077-1602-xx
FLT	MTS4EA Application Software	066-2030-xx	MTS4EAV7 Release Notes	077-0898-xx
			MTS4EAV7 User Manual	077-1134-xx
			MTS4EAV7 Tutorials	001-1650-xx
			Tclips MPEG Test Streams	066-2032-xx
PQ	PQA Application Software	066-2031-xx	PQA600C and PQASW Release Notes	077-1626-xx
			PQA600C and PQASW User Manual	071-1137-xx
	MTS4EA Application Software	066-2030-xx	MTS4EAV7 Release Notes	077-0898-xx
			MTS4EAV7 User Manual	077-1134-xx
			MTS4EAV7 Tutorials	001-1650-xx

¹ All software is loaded on the MTSA-HW instrument when shipped from the factory. The software will run only if it is properly licensed. Some software will operate in a reduced-functionality demo mode if it is not licensed.

² The last two digits of the part numbers are shown as "xx", which is the version number for the item. Always download the latest version.

Downloading MTSA-HW hardware documentation

The following table lists the associated documentation that supports each MTSA-HW instrument hardware option:

Hardware option	Document title	Document part number ¹
RACK	Rackmount Slides and Rails Kit Instructions	071-2746-xx
ASI	MTSA Quick Start User Manual	071-3661-xx
10GS	MTSA Upgrade Instructions	075-1112-xx
SDR		
DS2		

¹ The last two digits of the part numbers are shown as “xx”, which is the version number for the item. Always download the latest version.
