

020-3185-01 LVDS RSA7100 Series Converter Kit

Use the format adapter box and cables in this kit to connect a CTRL7100 Series controller with Option 05 (LVDS) to an external system that has LVDS.

CAUTION. The pins and casing of the 80-pin connector on the LVDS port in the CTRL7100 controller, and in the format adapter box in this kit, is fragile. Use great care when disconnecting and connecting the ribbon cable. If the pins are bent or the casing broken, the LVDS card in the controller (and/or the format adapter box) may need to be replaced.
