Warranty

Tektronix warrants that the media on which this software product is furnished and the encoding of the programs on the media will be free from defects in materials and workmanship for a period of three (3) months from the date of shipment. If any such medium or encoding proves defective during the warranty period, Tektronix will provide a replacement in exchange for the defective medium. Except as to the media on which this software product is furnished, this software product is provided "as is" without warranty of any kind, either express or implied. Tektronix does not warrant that the functions contained in this software product will meet Customer's requirements or that the operation of the programs will be uninterrupted or error-free.

In order to obtain service under this warranty, Customer must notify Tektronix of the defect before the expiration of the warranty period. If Tektronix is unable to provide a replacement that is free from defects in materials and workmanship within a reasonable time thereafter, Customer may terminate the license for this software product and return this software product and any associated materials for credit or refund.

THIS WARRANTY IS GIVEN BY TEKTRONIX WITH RESPECT TO THE PRODUCT IN LIEU OF ANY OTHER WARRANTIES, EXPRESS OR IMPLIED. TEKTRONIX AND ITS VENDORS DISCLAIM ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. TEKTRONIX' RESPONSIBILITY TO REPLACE DEFECTIVE MEDIA OR REFUND CUSTOMER'S PAYMENT IS THE SOLE AND EXCLUSIVE REMEDY PROVIDED TO THE CUSTOMER FOR BREACH OF THIS WARRANTY. TEKTRONIX AND ITS VENDORS WILL NOT BE LIABLE FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES IRRESPECTIVE OF WHETHER TEKTRONIX OR THE VENDOR HAS ADVANCE NOTICE OF THE POSSIBILITY OF SUCH DAMAGES.

[W9b – 15AUG04]

IMPORTANT: READ BEFORE USING TEST STREAMS

This software is provided under license from Tektronix, Inc. Retention of this program for more than thirty (30) days or use of the program in any manner constitutes acceptance of the license terms.

CAREFULLY READ THE ENCLOSED SOFTWARE LICENSE AGREEMENT. If you cannot agree to the license terms, promptly contact the nearest Tektronix Field Office for return assistance.

TEKTRONIX SOFTWARE LICENSE AGREEMENT

THE PROGRAM, OR PROGRAMS, ENCODED OR INCORPORATED WITHIN EQUIPMENT, IS FURNISHED SUBJECT TO THE TERMS AND CONDITIONS OF THIS AGREEMENT. RETENTION OF THE PROGRAM FOR MORE THAN THIRTY DAYS OR USE OF THE PROGRAM IN ANY MANNER WILL BE CONSIDERED ACCEPTANCE OF THE AGREEMENT TERMS. IF THESE TERMS ARE NOT ACCEPTABLE, THE UNUSED PROGRAM AND ANY ACCOMPANYING DOCUMENTATION SHOULD BE RETURNED PROMPTLY TO TEKTRONIX FOR A FULL REFUND OF THE LICENSE FEE PAID. (FOR INFORMATION REGARDING THE RETURN OF PROGRAMS ENCODED OR INCORPORATED WITHIN EQUIPMENT, CONTACT THE NEAREST TEKTRONIX SALES OFFICE.)

DEFINITIONS. "Tektronix" means Tektronix, Inc., an Oregon corporation, or local Tektronix' legal entity that is supplying the equipment.

"Program" means the Tektronix software product (executable program and/or data) enclosed with this Agreement or included within the equipment with which this Agreement is packed.

"Customer" means the person or organization in whose name the Program was ordered.

LICENSE.

Customer may:

1. Use the Program on a single machine at any one time;
2. If the Program is provided in connection with a floating-user license, the Program may be used on multiple machines provided that the user is authorized, and the total number of users at any one time does not exceed the total number of licensed concurrent users;
3. Modify the Program or merge it with another for use on the single machine; and
4. Copy the Program for archival or backup purposes, provided that no more than one (1) such copy is permitted to exist at any one time. If the Program is provided in connection with a floating-user license, the Program may be copied onto multiple machines for use by authorized users.

Each copy of the Program made by Customer must include a reproduction of any copyright notice or restrictive rights legend appearing in or on the copy of the Program as received from Tektronix.

Customer may not:

1. Use the Program on more than one machine at any one time, unless covered by a floating-user license or separate site license;
2. Transfer the Program to any person or organization outside of Customer or the corporation of which Customer is a part without the prior written consent of Tektronix, except in connection with the transfer of the equipment within which the programs are encoded or incorporated;
3. Export or reexport, directly or indirectly, the program, any associated documentation, or the direct product thereof, to any country to which such export or reexport is restricted by law or regulation of the United States or any foreign government having jurisdiction without the prior authorization, if required, of the Office of Export Administration, Department of Commerce, Washington, D.C. and the corresponding agency of such foreign government;
4. For object-code Programs only, reverse compile or disassemble the Program for any purpose; or
5. Copy the documentation accompanying the Program.

For Programs designed to reside on a single-machine and support one or more additional machines, either locally or remotely, without permitting the Program to be transferred to an additional machine for local execution, the additional machines shall be considered within the definition of "single machine". For programs permitting the Program to be transferred to an additional machine for local execution, a separate license shall be required for each such machine with which the Program may be used, or each concurrent user authorized under a floating-user license.

Title to the Program and all copies thereof, but not the media on which the Program or copies may reside, shall be and remain with Tektronix or others for whom Tektronix has obtained a respective licensing right.

Customer shall pay when due all property taxes that may now or hereafter be imposed, levied or assessed with respect to the possession or use of the Program or this license and shall file all reports required in connection with such taxes.

Any portion of the Program modified by Customer or merged with another program shall remain subject to these terms and conditions.

If the Program is acquired by or for an agency of the U.S. Government, the Program shall be considered computer software developed at private expense and the license granted herein shall be interpreted as granting Customer restricted rights in the Program and related documentation as defined in the applicable acquisition regulation.

THE PROGRAM MAY NOT BE USED, COPIED, MODIFIED, MERGED, OR TRANSFERRED TO ANOTHER EXCEPT AS EXPRESSLY PERMITTED BY THESE TERMS AND CONDITIONS.

UPON TRANSFER OF ANY COPY, MODIFICATION, OR MERGED PORTION OF THE PROGRAM, THE LICENSE GRANTED HEREIN IS AUTOMATICALLY TERMINATED.

TERM. The license granted herein is effective upon acceptance by Customer, and shall remain in effect until terminated as provided herein. The license may be terminated by Customer at any time upon written notice to Tektronix. The license may be terminated by Tektronix or any third party from whom Tektronix may have obtained a respective licensing right if Customer fails to comply with any term or condition and such failure is not remedied within thirty (30) days after notice hereof from Tektronix or such third party. Upon termination by either party, Customer shall return to Tektronix or destroy, the Program and all associated documentation, together with all copies in any form.

LIMITED WARRANTY. Tektronix warrants that the media on which the Program is furnished and the encoding of the Program on the media will be free from defects in materials and workmanship for a period of three (3) months from the date of shipment. If any such medium or encoding proves defective during the warranty period, Tektronix will provide a replacement in exchange for the defective medium. Except as to the media on which the Program is furnished, the Program is provided "as is" without warranty of any kind, either express or implied. Tektronix does not warrant that the functions contained in the Program will meet Customer's requirements or that the operation of the Program will be uninterrupted or error-free.

In order to obtain service under this warranty, Customer must notify Tektronix of the defect before the expiration of the warranty period. If Tektronix is unable to provide a replacement that is free from defects in materials and workmanship within a reasonable time thereafter, Customer may terminate the license for the Program and return the Program and any associated materials for credit or refund.

THIS WARRANTY IS GIVEN BY TEKTRONIX WITH RESPECT TO THE PROGRAM IN LIEU OF ANY OTHER WARRANTIES, EXPRESS OR IMPLIED. TEKTRONIX AND ITS VENDORS DISCLAIM ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. TEKTRONIX' RESPONSIBILITY TO REPLACE DEFECTIVE MEDIA, OR REFUND CUSTOMER'S PAYMENT IS THE SOLE AND EXCLUSIVE REMEDY PROVIDED TO THE CUSTOMER FOR BREACH OF THIS WARRANTY.

LIMITATION OF LIABILITY, IN NO EVENT SHALL TEKTRONIX OR OTHERS FROM WHOM TEKTRONIX HAS OBTAINED A LICENSING RIGHT BE LIABLE FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES ARISING OUT OF OR CONNECTED WITH CUSTOMER'S POSSESSION OR USE OF THE PROGRAM, EVEN IF TEKTRONIX OR SUCH OTHERS HAS ADVANCE NOTICE OF THE POSSIBILITY OF SUCH DAMAGES.

THIRD-PARTY DISCLAIMER. Except as expressly agreed otherwise, third parties from whom Tektronix may have obtained a licensing right do not warrant the program, do not assume any liability with respect to its use, and do not undertake to furnish any support or information relating thereto.

GENERAL. This Agreement contains the entire agreement between the parties with respect to the use, reproduction, and transfer of the Program.

Neither this Agreement nor the license granted herein is assignable or transferable by Customer without the prior written consent of Tektronix.

This Agreement and the license granted herein shall be governed by the laws of the state of Oregon.

All questions regarding this Agreement or the license granted herein should be directed to the nearest Tektronix Sales Office.

ADDITIONAL LICENSE GRANT FOR VIDEO TEST SEQUENCES. The Software Product may include certain test patterns, video test sequences and video clips (together "Video Test Sequences"). If so, the following terms describe Your rights to the Video Test Sequences:

You may use, copy and modify the Video Test Sequences and display or distribute copies of individual Video Test Sequences in connection with Your video testing activity.

You are not licensed to do any of the following:

1. You may not distribute the collection of Video Test Sequences, except in connection with the sale of original equipment containing the Video Test Sequences, without prior written permission from Tektronix.
2. You may not permit third parties to distribute copies of the Video Test Sequences.
3. You may not sell, license or distribute copies of the Video Test Sequences on a standalone basis or as part of any collection, product, or service where the primary value of the product or service is the Video Test Sequences.

You must indemnify, hold harmless, and defend Tektronix from and against any claims or lawsuits, including attorneys' fees, that arise from or result from the use or distribution of Video Test Sequences as modified by You.

You must include a valid copyright notice on Your products and services that include copies of the Video Test Sequences.

Compliance Information

This section lists the environmental standards with which the product complies.

Environmental Considerations

This section provides information about the environmental impact of the product.

Product End-of-Life Handling

Observe the following guidelines when recycling an instrument or component:

Equipment Recycling. Production of this equipment required the extraction and use of natural resources. The equipment may contain substances that could be harmful to the environment or human health if improperly handled at the product's end of life. In order to avoid release of such substances into the environment and to reduce the use of natural resources, we encourage you to recycle this product in an appropriate system that will ensure that most of the materials are reused or recycled appropriately.

This symbol indicates that this product complies with the applicable European Union requirements according to Directives 2002/96/EC and 2006/66/EC on waste electrical and electronic equipment (WEEE) and batteries. For information about recycling options, check the Support/Service section of the Tektronix Web site (www.tektronix.com).

Preface

This manual provides a reference to the various parameters for each of the streams provided with the Tektronix Tclips MPEG Test Streams software. The manual is divided into the following sections:

- Getting Started. Contains a product description, lists the standard accessories, and describes how to install the Tclips software.
- Operating Basics. Describes how to locate a desired test stream.
- Reference. Provides the technical parameters and thumbnail image(s) for each of the test streams.

Getting Started

The Tektronix Tclips MPEG Test Streams allow you to test your video equipment and/or systems by playing test streams with known parameters through the systems. The streams include video and audio content and are not intended for signal analysis.

Tclips test streams provide the following features and benefits:

- Broad range of MPEG-2 transport streams designed to test receivers across a broad range of video and audio formats
- Compliant service information (SI) conforming to the MPEG, DVB, and ATSC standards
- Standard and high-definition video encoded with both MPEG-2 and H.264/AVC
- Broad range of video resolutions, aspect ratios, frame rates, profile and levels, and bit rates
- Test patterns for verifying luminance and chrominance amplitudes, chrominance phase, and frequency response
- MPEG-1 and AC-3 encoded audio content using stereo and 5.1 channels

Applications

The Tclips MPEG Test Streams can be used for the following applications:

- Development and verification of receivers such as set top boxes, Integrated Digital TVs (iDTV), and personal computers.
- Use with the MTS400 Seres Multiplexer application to produce a library of regression test streams. Refer to datasheet 2AW-21201 for more information.

Standard Accessories

The Tclips MPEG Test Streams product is provided with the following standard accessories:

Table 1: Tclips standard accessories

Accessory	Tektronix part number
Tclips software media kit; contains the following parts:	020-2965-xx
■ Tclips software media booklet	
■ Tclips software license document	
■ Tclips software DVD media	
■ Tclips software USB media	

Installation

The Tclips MPEG Test Streams are provided on two types of media: DVD and USB. To install the Tclips software, perform the following steps:

1. Insert the Tclips Product Software DVD or USB media into the DVD drive or USB port on your computer.
2. Follow the instructions in the Tclips MPEG Test Streams InstallShield Wizard.

NOTE. During the installation process, you will select between two setup types: Complete or Custom. The Complete setup installs all of the test streams and requires a minimum of 14.2 GB of free space on your hard drive.

The Custom setup allows you to select which test streams will be installed. The InstallShield Wizard lists the space required on your hard drive for the test streams you select to install.

3. After the Tclips installation is complete, you will find the following items on your computer:
 - A PDF of the Tclips Technical Reference manual and the associated directory of full-resolution test stream images located in the same directory where you specified the test streams to be installed
 - A shortcut to the Tclips Technical Reference manual located on the desktop of your computer
 - A Start->Programs menu item for Tclips with two sub-items: MPEG Test Streams and Technical Reference Manual

Operating Basics

Finding a Test Stream

The Tclips test streams are organized into the following directories based on their usage and format:

- Audio Test Patterns
- H.264 Transcode Samples
- MTS400 Test Streams
- PQA200-300
- Software Encode
- Test Streams
- TG130A-131A-VM700 Matrix
- TG700 DVG7 Test Patterns
- VM700-AVDelay
- VM6000 Test Streams

You can use the names of the directories and signal files to help determine the test stream content. The streams are documented in this manual using the same organizational structure as the test stream files.

To find a test stream, review the high-level directories and signal parameters. (See page 5, *Test Streams Overview*.). This page lists the various directories of test streams and lists the video and audio parameters that apply across test streams types. After you select a directory, look through the tables corresponding to that directory for a test stream containing the parameters you need.

Using the PDF Thumbnail Images

Where available, the stream-parameter tables in the PDF file of this Tclips Technical Reference include thumbnail image(s) of the test streams. Click on a thumbnail image to view the associated full-resolution image.

NOTE. *The subdirectory containing the full-resolution images must be located in the same directory as the PDF of the Tclips manual in order for the PDF file to access the images.*

Test Streams Overview

The table below lists the test stream parameters that apply generally to the stream files in each of the directory folders. The following pages list the parameters for each test stream. All stream files are Transport Stream format except for streams in the Audio Test Patterns folder. The audio streams include ES (*.aud and *.mpg), JPG, and TRP files.

Video Test Streams - Common Parameters

Chroma format: 4:2:0
Open GOP (MPEG-2 SD I @ 4 Mbps, P @ 8 Mbps, HD @ 16 Mbps - except for PQA, TG, VM, and Audio): HP>High-Profile VBV from ATSC 7995392 bits instead of MPEG-2 @ 9781248
Software encoder parameter bug: SD Prog. Sets FrameExtensionChroma = 0
Warning: S/wEncodeSD-16x9 Circle not round

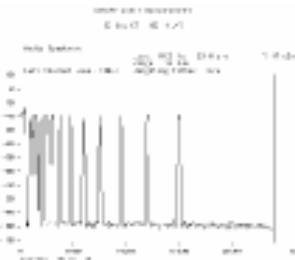

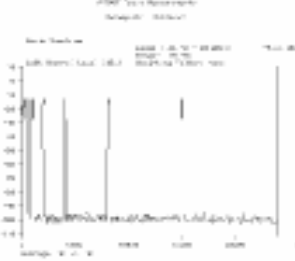

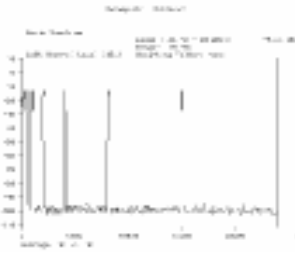

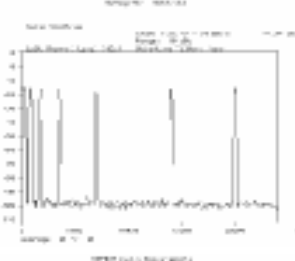

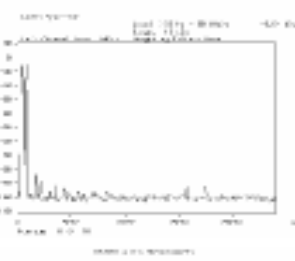

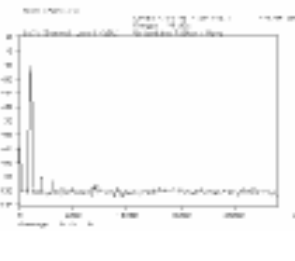

Audio - Common Parameters in Test Streams

Audio MPEG-1 Layer II (if present)	Channels: Stereo Bit rate: 256 kbps	Sample rate: 48 kHz Tones L/R, Ref level: 800/1200 -18 dBFS
Audio AC-3 (if present)	Channels: 5.1 Surround Bit rate: 448 kbps	Sample rate: 48 kSps Tones L/R/C/LS/RS/LFE, Ref levels: 1000/4000/2000/500/8000/100 Hz @ -20 dBFS

General Information

Duration 60 sec
SI BAT, PAT, PMT, NIT, SDT, TOT, EIT
PSI PAT, PMT
Video bit rates are raw video encoder bit rates and the GOP size is 12.
Audio is Layer II, MPEG-1

Test stream 1 (sym1.mpg): Bit rate tests

This test stream contains a collection of video and audio elementary streams at differentbitrates. The video has a GOP size of 12 (IBPBPBPBPBPB), the audio is composed of layer2, MPEG 1 material with a sample frequency of 48kHz.

Service	Video bit rate (Mbit/s)	Audio1 bit rate (kbit/s)	Audio2 bit rate (kbit/s)
1	1.98	64	384
2	3.96	128	64
3	4.98	192	128
4	9.96	256	192
5	13.98	384	256

The TS bit rate is 41.471 Mbit/s, and the file size approximately 310 MB.

Test stream 2 (sym2.mpg): PCR errors

This test stream contains various PC Rerrors. Service 1 to 5 contain radio services carrying a PCR, Service 6 contains video at a bit rate of 3Mbit/s. The first service is intended as a reference PCR. The start value of this PCR is 95413.7177s. This value has been chosen in such a way that after 30s the PCR wraps around to zero.

Service	PCR specialities	Amplitude
1	reference(+wrap)	-
2	jitter(sinus)	250ns
3	jitter(sinus)	750ns
4	jitter(random)	500ns
5	stepinPCR	100s
6	'splice'	100s

The TS bit rate is 8 Mbit/s, and the file size is 60 MB.

Test stream 3 (sym3.mpg): PCR errors

The transport stream contains two services.

Service 1: video 3.0Mbit/s (PID 0x0009) 2 audio, PID120 at 384kbit/s PID 130 (scrambled) at 192kbit/s

Service 2: video 3.0Mbit/sec (PID 210) 2 audio 192kbit/s (PID 220, 230), one of which is scrambled (230) private data stream 10kbit/s (PID 260)

The stream will start correctly to enable the analyser to check the (P)SI tables. An error will be inserted only once.

Error name	PID	Packet No	Error specifications
PAT error 1	0x0000	25531 26595 27659	transport_scrambling_control is '11'
PAT error 2	0x0000	50001 51063 52127	table_id is 0x03'
forbidden PID	0x0009	throughout	video PID is 0x0009 (reserved value)
payload_unit_start _ indicator error	0x1FFF	75001 75002 75005	payload_unit_start_indicator is '1'
AF error 1	0x1FFF	100006 100007 100008	adaptation_field_control is '11'
AF error 2	0x0000	125531 126597 127659	adaptation_field_control is '10'
AF error 3	120	150021 150062 150103	adaptation_field_control is '00'
AF error 4	120	175162	adaptation_field_control is '11', and adaptation_field_length = 183
Continuity counter error	130	200046 200125	the continuity counter is the same for 3 packets in a row, and 2 packets are lost
CAT error	0x0001	throughout	PID 0x0130 has been scrambled but no CAT has been inserted
Length error 1	100	225532	ES_info_length in PMT is incorrect
packet_start_code _prefix error	120	250025	payload_unit_start_indicator = '1' butno PES packet_start_code_prefix
Length error 2	120	300293	PES_packet_length incorrect by 1 byte
Length error 3	0x0000	325531	PAT section length is set to 6
CRC error	0x0010	354616	The CRC in the NIT is wrong
PID error 1	1000	throughout	PMT not listed in PAT (audio ES)
PID error 2	1010	throughout	PAT section on illegal PID
PID Error 3	16	throughout	CAT section on illegal PID (together with NIT, continuity counter corrected)
sync error 1	XXX	350000 350001 350002 350003	sync loss over 4 consecutive packets
sync error 2	XXX	400000 400001 400002 400003 400004	sync loss over 5 consecutive packets

TS bit rate is 16Mbit/s, and the file size is approximately 120Mbyte.

Test stream 4 (sym4.mpg): (P)SI table repetition too slow

In this service all the tables are inserted after the time specified in ETR211 have been exceeded.
1 service, video 3.0Mbit/s, audio 192kbit/s

Table	Time between occurrence(s)
BAT	>10
PAT	>0.5
CAT	>10
PMT	>0.5
NIT	>10
SDT	>2
EIT	>2
TOT & TDT	>30

Test stream 5 (sym5.mpg): (P)SI table repetition too often

In this stream all tables occur too often.

1 service, video 3.0Mbit/s, audio 192kbit/s. All tables occur more than 40 times per second (thus less than 25ms between sections).

TS Bit rate is 8Mbit/s, the file size approximately 60Mbytes.

Test stream 6 (sym6.mpg): Color Bar Test Stream

This stream contains the following content:

Transport Stream

bitrate: 6Mbit/s
length: 38.1Mbytes (40,000,008 bytes)
duration: 53.33s
(P)SI: PAT, PMT, NIT, SDT

The PCR is placed upon the video PID

Video

content: 75% Colour bar
refresh rate: 50Hz
bitrate: 3Mbit/s

Audio

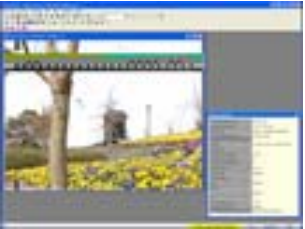

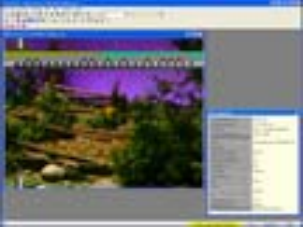

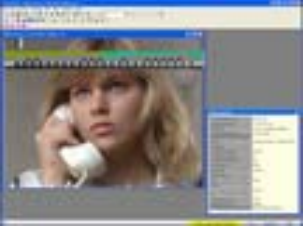

content: sine wave at 1kHz
bitrate: 384kbit/s
extra info: layer II MPEG-1, stereo, 48kHz
